

DE LA SALLE-COLLEGE OF SAINT BENILDE

June 16, 2023

Dear Benildean Community,

Greetings!

We are sending this advisory to inform everyone of some updates regarding the policies and services of the College.

Ban on Single Use Plastics

We are implementing a ban on the use of single-use and disposable plastic in the College. The ban will cover the use of disposable items such as plastic bags, cutlery, plates, cups, straws, stirrers, and as well as wrapping implements such as shrink wrap and bubble wrap. We are also discouraging the use of plastic PET bottles and plastic lid containers.

This policy will take full effect at the start of the next Academic Year, but everyone is enjoined to practice using reusable or sustainable materials at this early stage. A full advisory on this matter shall be released by the Center for Building and Grounds Management soon. We expect everyone's full cooperation and compliance.

Operations of The Generator

The Generator shall be open for 24 hours from Monday, June 19, until Friday, June 23. This is in line with the upcoming mid-term week. The Generator will close at 10pm on Friday evening, since June 24 is a holiday in the City of Manila.

The Generator will revert to its previous operating hours (10am to 10pm from Mondays to Fridays, and from 10am to 7pm on Saturdays) on June 26.

Submission of Medical Clearances and Maintenance of Health Protocols

All students who have to absent themselves because of illness are requested to provide a medical clearance upon their return to class in order for their teachers to consider granting an academic accommodation. We remind everyone to continue to wear their masks while on campus, to monitor their symptoms, and to manifest any illnesses to the College Clinic.

DE LA SALLE-COLLEGE OF SAINT BENILDE

Thank you very much!

In Saints La Salle and Benilde,

(sgd.) Juan Ramon R. Odulio

Vice President for Administration
